About Me

As an Ethical Hacking professional, I bring a blend of technical expertise and problem-solving skills to identify system weaknesses and improve security. My hands-on experience with cybersecurity labs, penetration testing tools, and network security concepts allows me to assess risks and recommend effective solutions. I am committed to continuous learning and aspire to grow into a trusted cybersecurity specialist who helps organizations stay one step ahead of attackers.

Education

Bsc in Computer Science

GH Raisoni University

2023 - present

Skills

- Penetration Testing Tools: Nmap, Metasploit, Burp Suite, Wireshark, Hydra
- Operating Systems: Kali Linux, Parrot OS, Windows, Ubuntu
- Web Security: SQL Injection, XSS, CSRF, Directory Traversal, File Inclusion
- Networking: TCP/IP, VPN, Firewalls, IDS/IPS
- Programming/Scripting: Python, Bash, JavaScript, HTML
- Other Skills: Vulnerability Assessment, Social Engineering awareness, OWASP Top 10

Language

- English
- Hindi

Certifications

- **EHE-Ethical Hacking Essentials(EC-Council)**
- **CEH-Certified Ethical Hacker(EC-Council)**
- **TryHackMe / HackTheBox Challenges (Hands-on labs)**
- **Python,java,C,C++.Linux OS,Ethical Hacking Intro, Ethical hacking for Mobile Plateforms & Network Architechture,Intro to Cyber Security,Adv. Cyber Security-Threats & Governance(Great Learning Plateform)**
- **MCRA,MCSB,CAF,WAf,DRSCC for ransomware(Microsoft)**
- **Android & Web Testing(EDUCBA)**
- **TryHackMe badges, HackTheBox rank.**

Proffessional Experience

Virtual Internships

Cyber Security Job Simulation(Master Card)

Cyber Security Job Simulation(Telstra)

AICTC-All India Council Of Technical Education

Projects & Practical Experience

- Web Application Penetration Testing .
- Identified vulnerabilities like SQL Injection & XSS in demo sites; documented exploitation steps and patch recommendations.
- Network Security Assessment (Lab Environment)
- Conducted vulnerability scans using Nmap and Wireshark to analyze traffic and secure virtual networks.
- Bug Bounty / CTF Participation
- Solved Capture the Flag (CTF) challenges on platforms like TryHackMe, HackTheBox to practice real-world attack scenarios.

Soft Skills

- Problem-solving & analytical mindset
- Attention to detail
- Strong communication & teamwork
- Quick learner and adaptive to new technologies
